A passionate Fullstack developer with a Bachelor's degree in Information Technology looking for a Fullstack Role, I specialize in web development with a focus on React.js, Node.js, and Express.js. My hands-on experience includes developing dynamic web platforms such as QuizyWorld, Medworld, Housify and DineHub, showcasing my proficiency in full-stack development and modern web technologies like Material UI, React, Node, Tailwind CSS and Firebase. With a strong foundation in programming and a commitment to continuous learning,

Project Experience

1. **QuizyWorld (https://sweet-selkie-468a34.netlify.app)**
   - Developed a Quiz website using React.js and React-DOM where users can log in and take quizzes on various subjects, tracking their scores.
   - technologies: ["HTML", "CSS", "Firebase", "React", "Tailwind"],

2. **Housify(https://github.com/ezbundler/housify_MERN)**
   - A fully functional property selling and House renting website where you can create your listing for renting and selling the house and check others listing. Just login create your listing and get the deal within you hands staying at home only.
   - technologies: ["HTML","CSS","React","NodeJS","ExpressJs","MongoDB","Tailwind", "Firebase"]

3. **DineHub(https://github.com/ezbundler/dineHub_backend)**
   - Created an online platform for restaurant reservations and donations. Users can book tables by specifying the number of seats and timing.
   - technologies: ["HTML", "CSS", "React", "Node.js", "MongoDB"],

Academics
