A passionate Fullstack developer with a Bachelor's degree in Information Technology looking for a Fullstack Role, I specialize in web development with a focus on React.js, Node.js, and Express.js. My hands-on experience includes developing dynamic web platforms such as QuizyWorld, Medworld, and DineHub, showcasing my proficiency in full-stack development and modern web technologies like Material UI, React, Node, Tailwind CSS and Firebase. With a strong foundation in programming and a commitment to continuous learning,

Technical Skills

- **Programming Languages:** C++, SQL
- **Web Development:** React js, Node js, Express Js, JavaScript, Bootstrap, Tailwind CSS, Firebase, Material UI
- **Have hands on :** Visual Studio, GitHub
- **Operating Systems:** Windows

Academics

Bachelor of Technology (B.Tech)
Information Technology
Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV) - AITR Indore
2023 | 8.02 CGPA

12th Standard
CBSE - SICA Indore
2019 | 7.0 CGPA

10th Standard
CBSE - SICA Indore
2017 | 9.2 CGPA

Project Experience

1. **QuizyWorld (https://sweet-selkie-468a34.netlify.app)**
   - Developed a Quiz website using React.js and React-DOM where users can log in and take quizzes on various subjects, tracking their scores.
   - Implemented styles and responsiveness using Tailwind CSS.
   - Integrated authentication using Firebase.

2. **Medworld**
   - Developed an online platform for hospital management with JavaScript and Sql where users can save their data and check the type of disease according to the symptoms during the college time. Further after learning React, express, node ,I improvised it so that user can track hospital bills and appointments .
   - Connected the database using MongoDB and designed the backend using Express.js and Node.js.

3. **DineHub(https://github.com/ezbundler)**
   - Created an online platform for restaurant reservations and donations. Users can book tables by specifying the number of seats and timing.
   - Designed the frontend using React.
   - Connected the database using MongoDB and designed the backend using Express.js and Node.js.

Internships/Trainings

Developer Intern at Viami Globals, Indore (Sept 21 – Jan 22)
- Developed user interfaces using Bootstrap, HTML5, CSS, and JavaScript.
- Analyzed user requirements to meet project deadlines.
- Wrote custom HTML, CSS, and JavaScript for existing websites.
- Collaborated with developers to create new code.

Executive Analyst (Freelancing) at Ponka, Sierra Leone (Aug 22 - Sept 22)
- Utilized Super Annotate and other AI tools for object identification.
- Enhanced operations through dedication and hard work.
- Acquired and applied new skills to enhance productivity.

Certifications

- The Complete 2024 Web Development Bootcamp provided by Udemy Platform.
- Beginner level of google cloud at simplilearn.
- Getting Started with AWS Services Fundamentals for Beginners at simplilearn.
- MySQL Basics at Great learning.
